## SHAVING PREPS

Pre-Shave Preparations are the actions taken prior to executing the actual mechanism of shaving. The purpose of these actions will vary at least slightly between the individuals executing them, however, a general purpose that is common to all shavers is that of conditioning the beard hairs for the easiest or most efficient removal. Along with this, one may need/desire to also take measures to better prepare the skin for repeated contact with a sharp blade.

Marketers		Brand
1	Bic-Gba Sdn. Bhd	Bic
2	Energizer M'sia Sdn. Bhd	Schick

9	Wesley International	Super-Max

## TALCUM POWDER

Talcum powder is an astringent powder used for preventing diaper rash, as a deodorant, and for other cosmetic uses. It may be composed of talc (in which case it is also called talcum powder) or corn starch. Talcum powder is harmful if inhaled since it may cause aspiration pneumonia or granuloma.

1	Apex Pharmacy	Agnesia
2	Jetaine Corporation	Tracia

## TISSUE/WIPE

Tissue is a soft paper product (tissue paper) used to maintain personal hygiene after human defecation or urination. However, it can also be used for other purposes such as blowing one's nose when one has a cold or absorbing common spills around the house, although paper towels are more used for the latter.

## FACE CARE-WOMAN

The face is one part of our body that needs proper care.

It should be protected from the harmful effects of the environment. These pollutions make the face to look matured earlier than expected. A lot of people are concerned about this aspect. That is why beauty experts do a lot of research about good facial care.

## FACE CARE-WOMAN

The face is one part of our body that needs proper care. It should be protected from the harmful effects of the environment. These pollutions make the face to look matured earlier than expected. A lot of people are concerned about this aspect. That is why beauty experts do a lot of research about good facial care.

## FACE CARE-MAN

Whether you're a man or a woman, washing your face is one of the most important parts of your daily skin care routine. Men tend to forget to wash their face at night, since they don't have makeup to remove like many women do. However, removing the dirt and oils that have accumulated during the day is critical for healthy, attractive skin. Cleaning your skin will also help prevent acne, blemishes and other problems that use dirt and oil as their breeding ground.

## BATH ADDITIVES

The products themselves contain no water, and for this reason they do not need to contain preservatives. In the simplest form they are just oil and a dispersing agent, to make the oil disperse into the water. The visible sign of this is that the bath water turns milky.

## FACE CARE-MAN

Whether you're a man or a woman, washing your face is one of the most important parts of your daily skin care routine. Men tend to forget to wash their face at night, since they don't have makeup to remove like many women do. However, removing the dirt and oils that have accumulated during the day is critical for healthy, attractive skin. Cleaning your skin will also help prevent acne, blemishes and other problems that use dirt and oil as their breeding ground.
